

Program/Education Committee Member Roles & Responsibilities

Context and Purpose

The Program/Education Committee is a standing committee with goals of educating Canadian Colposcopists, healthcare professionals with an interest in colposcopy as well as the general public about SCC, colposcopy and the diseases of the lower genital tract.

Committee Member Responsibilities:

- Serve in an advisory role to guide the committee
- Actively participate in meetings, contributing to the discussion, providing input on plans, brainstorming and sharing innovative ideas
- Review material and provide input for improvement
- Participate in the development and implementation of the committee strategic plan
