

3RD ANNUAL GENERAL MEETING

A hand is shown holding a black smartphone, with the fingers positioned as if interacting with the screen. To the right of the hand, a glowing, wireframe cross graphic is superimposed over a background of a blue, geometric, low-poly pattern with white dots and lines.

November 08, 2023
4:00pm - 7:00pm EST

PROGRAM BOOKLET

A CME-ACCREDITED EVENT DEVELOPED BY
the SCC Education Committee

In-kind support provided by The Society of Gynecologic Oncology of Canada

AGENDA

WEDNESDAY, NOVEMBER 8, 2023 - 4-7 PM EST

TIME	SESSION	SPEAKER
4:00 pm	Welcome, Introductions & Announcements	Dr. Naana Jumah
4:10 pm	HPV Vaccine Recommendations – Beyond School-Based Programs	Dr. Elmar Joura
4:35 pm	Vaginitis - Beyond the Basics	Dr. Jack Sobel
5:00 pm	Vulvar Conditions in People of Colour	Dr. Olushola Akinshemoyin Vaughn
5:30 pm	Networking Health Break - Stretch Session	
5:40 pm	Trauma Aware Care in the Colposcopy Clinic	Dr. Heather Millar
6:05 pm	QI Initiative to Increase HPV Vaccination Post LEEP	Dr. Jordan Lewis
6:30 pm	New SCC-GOC Canadian Cervical Screening Guidelines	Dr. Tiffany Zigras
6:55 pm	Closing Remarks	Dr. Naana Jumah

LEARNING OBJECTIVES

AT THE END OF THIS MEETING, PARTICIPANTS WILL BE ABLE TO:

- Gain knowledge in diagnosing and managing complex cases of vaginitis, going beyond the basics.
- Understand and apply the new SCC/GOC Canadian cervical screening guidelines to optimize patient care.
- Recognize and address vulvar conditions specific to individuals of colour.
- Develop expertise in trauma-aware care within the colposcopy clinic setting.
- Comprehend the latest HPV vaccine recommendations, particularly beyond school-based programs.
- Improve communication skills when discussing sensitive issues related to vaginitis, cervical screening, vulvar conditions, trauma-aware care, HPV vaccination, and colposcopy.
- Cultivate cultural sensitivity and empathy when discussing vulvar conditions in people of colour.
- Enhance communication in the colposcopy clinic to provide trauma-aware care.
- Stay updated on the latest research, evidence, and best practices in vaginitis, cervical screening, vulvar conditions, trauma-aware care, HPV vaccination, and colposcopy.
- Contribute to the development and dissemination of knowledge in these areas through scholarly activities.
- Uphold professional and ethical standards when diagnosing and managing vaginitis, implementing cervical screening and colposcopy guidelines, addressing vulvar conditions, providing trauma-aware care, delivering HPV vaccinations, and conducting colposcopy procedures.

SPEAKERS

DR. ELMAR JOURA

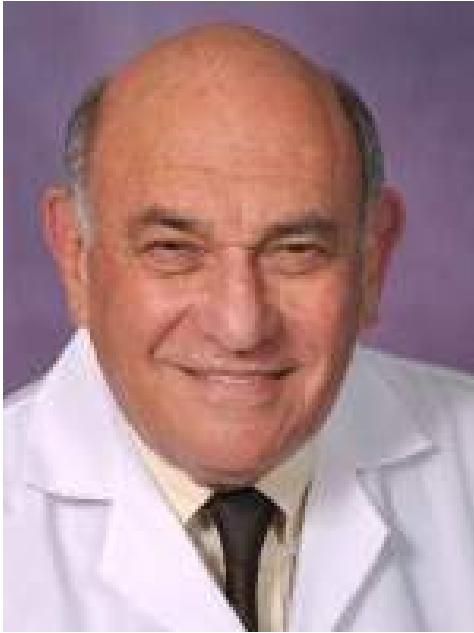

Dr. Elmar Armin Joura is a distinguished Austrian gynecologist and obstetrician with a remarkable career in the field of women's health. Dr. Joura's professional journey is marked by a commitment to clinical excellence, research, and education. His educational path began at the University of Graz Medical School, where he laid the foundation for his medical expertise during the years 1980-1987. Following this, he joined the Department of Pathology at the University of Graz, Austria, in 1988.

Over the years, Dr. Joura has held key positions in numerous international organizations and has been actively involved in clinical trials, particularly in the field of HPV vaccines. Dr. Joura's career is a testament to his dedication to advancing women's health and his unwavering commitment to education, research, and clinical excellence. He has served as the President of EUROGIN 2016 congress and as the President of the European College for the Study of Vulvovaginal Disease (ECSVD) from 2018 to 2020, further solidifying his influence and leadership in the field.

MODERATOR

DR. NAANA JUMAH

Naana Afua Jumah is an Obstetrician Gynaecologist at the Thunder Bay Regional Health Sciences Centre and a researcher at the Northern Ontario School of Medicine.

Dr. Jumah's research and clinical practice focuses on Indigenous women's health and addiction in pregnancy in Northwestern Ontario. Through a series of integrated research studies, Dr. Jumah seeks to determine how to organize a model of care that addresses the needs of substance involved pregnant women in the region and improve maternal and neonatal outcomes.

Dr. Jumah holds a Bachelor's degree in Chemical Engineering from the University of Toronto and a DPhil in Medical Engineering from the University of Oxford, which she completed as a Rhodes Scholar. Following her doctorate, she graduated from Harvard Medical School and then completed her residency in Obstetrics and Gynaecology with a specialization in Addiction Medicine at the University of Toronto.
